THE WORKPLACE WATER CHEAT-SHEET

	DFW TAP WATER	FRIDGE FILTERS	WATER BOTTLES	BIG-BOX STORE WATER BOTTLES	5-GALLON JUG DELIVERY	PUREAQUATEK BOTTLE-LESS PURIFICATION SYSTEMS
EASE OF USE	Open the tap	Push a button, but you have to regularly maintain the systems	Grab a bottle, but you have to keep buying cases	Push a button, but you have to regularly maintain the systems	Push a button, but you have to arrange delivery, jug storage, change out heavy jugs, and keep clean the system by hand	Touchless systems, unlimited water, our local team takes care of all maintenance
WATER QUALITY	Contains chemicals, fluoride, and contaminants	With regular maintenance, these filters will remove contaminants but not all chemicals or fluoride	Toxic PFAS chemicals have been found in many popular brands	Low-cost filters may remove some contaminants, but most leave chemicals and fluoride	High-quality water but the water coolers open system (the air that is drawn in) may introduce bacteria	Purified, chemical and contaminant-free, mineral-boosted water
COSTS	free	Only the cost of maintenance (although most people rarely keep up maintenance)	Hundreds to thousands of dollars each month	Only the cost of maintenance (although most people rarely keep up maintenance)	You pay for what your team uses. In winter months its often affordable and in summer months costs skyrocket	A simple monthly flat-fee with no hidden charges or surprise bills
REQUIRED CLEANING AND MAINTENANCE	None	Filter change every 6-months	None	Filter changes required as per the manufacturers instructions	A 90-minute bleaching and scrubbing routine, by hand, every 60-90 days	Our local team does all regular maintenance including filter changes
BENEFITS	Its fast and free	Its fast and cost-effective	Its easy for teams who are on the road	Its fast and cost-effective	High-quality water, can be used in locations with no power and/or water hookups	High-quality water, unlimited supply, never store jugs, never change jugs, never miss a water delivery, closed system and touchless activation reduces contamination, we do all the maintenace, simple fixed fee
COMMON FRUSTRATIONS	Poor water taste, odor, and quality, containing chemicals, fluoride, and contaminants.	Regular required maintenance which is often ignored	Expensive, poor water-quality, plastic waste, must be regularly ordered and stocked	Regular required maintenance which is often ignored	Fluctuating fees, missed water deliveries, 5-gallon jugs are heavy and require storage, onerous bleaching and cleaning is required but often ignored	Our high-quality systems require access to your locations water and power
ENVIRONMENTAL IMPACT	none	none	In 2017, single-serve water sales totalled $24.1 billion - just imagine how many plastic bottles are used each year	none	The CO_2 emissions from delivery services driving large trucks around DFW all day, every day, delivering heavy 5-gallon jugs full of water is significant	none
WHEN TO USE THIS FOR YOUR TEAM	Single-person companies	Small companies with a handy , dedicated maintenance person	Small teams that are always on the road	Small companies, with a handy, dedicated maintenance person	Locations that do not have power or water hookups	Teams of 10 to 300+ employees, looking for flat rates and maintenance-free water, with power and water hookup access
